September 1956

## THE NRA

The National Rifle Association of America is a nonprofit organization supported by the membership fees of public-spirited citizens. Its purposes are to educate and train citizens of good repute in the safe and efficient handling of firearms; to foster a knowledge of small arms and the ability to use them among members of law enforcement agencies and the armed services, and all other citizens who would be subject to service in the event of war; to promote social welfare and public safety, law and order, and the national defense. Membership in NRA is available to any reputable citizen of the United States upon nomination by a current member.

## OFFICERS OF THE ASSOCIATION

Morton C. Mumma, Rear Adm., USN (Ret'd), President

George R. Whittington, Vice President

Floyd L. Parks, Lt. Gen., USA (Ret'd), Executive Director

## COVER

According to Thomas E. Hall, Curator of the Winchester-Western Division of Olin Mathieson Chemical Corp., the rifle on the left is a Henry, .44 rimfire Henry cal., standard 24" octagonal barrel, serial number 7001, probably made in 1864. The receiver was originally silver-plated, plating now considerably worn off. The rifle on the right is a Volcanic made by the New Haven Arms Co., 25" octagonal barrel, .38 cal., serial number 88, by Henry Aubin. Guns were placed on a 3-ft. high plate glass table with four 1,000-watt 3200 Kelvin lamps were used to light up the background paper which was placed on the floor. Photo was taken with a Deardorff camera with a 12" commercial Ektar lens on 4x5 type B film. Exposure was set for 1/2 sec. at F. 16

Dave Bushnell says:

Shoot what the other fellow CAN'T EVEN SEE!

Are binoculars useless in thick, shadowy timber? Nothing's further from the truth! The brilliant optics of today's binoculars pierce forest gloom as no human or animal eye could ever do... especially if you choose low power glasses. The 7x35 wide-angle Rangemaster is ideal. So are the superb 6x30s! If you travel light, carry those little 6x Broadfields.

Here's the idea: In timber, look through the trees, not at them. It's so easy! The 3-D effect of the binocular literally brushes them aside. You see brightly lighted pockets polka-dotted among the black masses of brush, bushes and shadows.

Don't expect to see an entire animal, spot-lighted in a clearing like a prima donna on a stage. Look only for parts... legs, ears, a switching tail, a single searching eye in the thick shade. Look for unusual colors, and textures out of place in the dark green forest monotone... for stealthy movements that vary the forest patterns of light and shadow.

A little practice, that's all you need. It's simple! Lots of fun, too, with a Bushnell... especially when you get those timber shots the next man swears "ain't there!"

(Sig) D. P. Bushnell  
Life Member NRA

## "No Binoculars Compare"...

No binoculars I've ever seen compare with these 7x Bushnells. I get a surprisingly wide range of vision, yet the image is always bright and well-defined... they're a pleasure to use.

William Holden

Starring in TOWARD THE UNKNOWN... A Toluca Production, produced and directed by Mervyn LeRoy, presented by Warner Bros.

\$64.50\*

### ALL PURPOSE 7 POWER, 35mm

Choice of America's leading hunters. Advanced optical design. Crisp definition. Very bright illumination. Compact: 4 1/4" x 5 3/4".

**America's Most Distinguished Binoculars**  
**NOW Guaranteed 20 Years**  
**Free Parts! Free Service!**

Field at 1,000 yds., 395 ft. Featherlight magnesium. Center focus \$69.50\*. Heavier aluminum model, I.F. \$54.50\* C.F. \$59.50\*

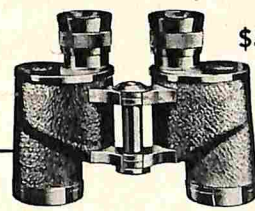

**RANGEMASTER** World's finest binocular. 7x35 wide angle. I.F. or C.F. \$135.00\*

\$44.50\*

### 6 POWER, 25mm BROADFIELD

For those who travel light: Compact, but not a miniature. Weighs 12 ozs. World's widest field of view to spot your target twice as fast. Highly color-corrected.

\$54.50\*

### 8 POWER, 30mm WIDE ANGLE

When your quarry's pinpoint small, here's power to pull it close, widest-angled 8 power to spot it fast. 460 ft. field. Compact, easily carried everywhere. Optics 100% hard coated. Featherlight. Center Focus, \$59.50\* 6 Power, 30mm. For twilight efficiency. 460 ft. field. I.F. \$44.50\* C.F. \$49.50\*

\$89.50  
(No Fed. Tax)  
Stand \$14.95

### 60mm SPACEMASTER SPOTTER

America's favorite wins international fame. 45° offset eyepiece lets you check shots without moving from firing position. Saves time, strain, fatigue. Remote control focusing. Amazing clarity, brilliance... spots .22 shots at 300 yds. Choice of one eyepiece: 15X, 20X, 25X, 40X or 60X.

Straight, all-purpose model, \$85.00. Cowhide carrying case, \$14.50

Written money-back guarantee. 30 DAY FREE TRIAL. Maximum value assured through exclusive processes in our Japanese contract factories. Tested and approved by U.S. Optical Laboratory. Write for NEAREST DEALER.

33 other Binocular models from \$9.95\*
