## THE COVER

Less famed than Henry Deringer's single-shot percussion "stubby" but potentially twice as deadly, these compact flintlock over-under pocket pistols by Egg of London featured a mechanism now common in modern shotguns—a single-trigger action for two barrels. These seven are owned by W. Keith Neal, of Wiltshire, England. Another, 7½" long, was auctioned off in London recently for over \$1,500. Photograph by W. Keith Neal.
