

# first and foremost American

Mossberg put the first .22 R.F. Magnum rifle on the American market. Our Model 640K is still the leader... the rifle for the man who needs accuracy for varmints but does not care to go into hand loading center fire ammunition. AC-KRO-GRUV® rifling — drilled and tapped for peep sight. Receiver grooved for scope mounts. Take your choice for 100-yard shots. And, priced at only \$55.90. Send for your free copy of the Mossberg catalog and examine our complete line of firearms; made with traditional American craftsmanship at a price anyone can afford.
