

Twin Homes—but  
**one is Kimsul-ated  
 for Winter Warmth**

**THE BURTONS COULDN'T UNDERSTAND** why their home was always so cold and drafty. It was designed the same and built with the same materials used in the Meed's house across the street. The Meeds use less fuel. Yet their home is far more comfortable.

**"HERE'S THE ANSWER, MR. BURTON!** A few months ago, I installed KIMSUL\* Insulation between the beams of the roof, and what a whale of a difference it has made. The house is warmer and the heat is more uniform. As a result, the family feels much better."

**Here's Why KIMSUL Is Better Insulation**  
 . . . Easier to Install

KIMSUL is the only insulation with many-layer construction. Unlike loose, bulk insulation, KIMSUL is prefabricated. Stitched together, the many-layers form a blanket of uniform thickness from end to end. Thus, KIMSUL Insulation assures you the same uniform protection over every inch . . . today, and years from now.

If you can handle a hammer, you can easily install KIMSUL. Made in four standard widths, it fits snugly between floor joists or roof rafters. It is light in weight. It is clean—pleasant to handle. And KIMSUL is chemically treated for protection against fire, water, mold and fungus. KIMSUL is termite proof.

Order KIMSUL from your lumber or building supply dealer, hardware or department store. Do it now—save up to 30% on fuel—enjoy a warmer, more comfortable home this winter.

\*KIMSUL (trade-mark) means Kimberly-Clark Insulation
