An editor's lament: How can 20 pages be made to carry material which would need 28?

Why is the firing line at a muzzle loading shooting match on a windy day like an atomic explosion? — 50% Fallout.

It looks like the National Muzzle Loading Rifle Association has really done a service to the hobby which hit the jackpot in the publishing of "HOW". The first return mails brought over 100 orders for the book. Readers who desire a

copy are urged to use the order sheet in the May issue of this magazine.

An Ohio group is organizing a new wrinkle in the m-l shooting game. They will be known as the "Flintlock and Buckskin Rendezvous" — In all the regalia of the pioneers and mountain men, they will be a good colorful addition to any match. The first meeting will be at Columbus, Ohio, Bill Moose Range, June 14.

"Charter Championship National" is the title of the big fall matches coming up for 1958. Work has already started on the selection of trophy for the club team that wins the match honoring our 128 Charter Clubs. Is yours working? Take a hand.
