

Nikkormat FTN. It's a 35mm slr with a center-the-lens meter system that's centered for uniquely accurate response even in the most difficult lighting. A feature that doesn't dim the finder when adjusted.

There are some 35 interchangeable lenses available for it, from 6mm to 2000mm, all with instant-change lens mounts.

Plus other components of the Nikon System, including bellows, slide-copying attachments and extension tubes.

And it sells for less than \$280 with 50mm f2 lens. See the Nikkormat FTN at your dealer, and ask him about the Nikon School. Or write for details. Nikon Inc., Garden City, N.Y. 11530. Subsidiary of Ehrenreich Photo-Optical Industries, Inc. (In Canada: Anglophoto Ltd., P.Q.)
