Vintage Magazines for Special People

Fortune can smile – on those who choose the right wealth manager. Just don't go looking for the right wealth manager at one of those investment firms that handles lots of other business, like investment banking or corporate lending. You may end up with an off-the-shelf solution because they didn't have the time or expertise to go the extra mile.

Fortunately, you can find what you need at U.S. Trust. Because we have only one business: wealth management – true wealth management – which means dedicating the time and the right people to deliver truly customized solutions for every client.

It starts with a portfolio manager, like David Tillson. He works with a team of specialized experts (as well as your personal advisors) regarding all things that can impact your financial affairs. Like estate planning, private banking, risk management, and tax planning. With today's income and estate tax rates, you'd be amazed how a tax specialist can help.

This level of attention, and much more, is why so many people at the top of their game – be they key partners of Wall Street firms, heads of America's largest corporations, or owners of successful businesses have relied on us since 1853. We hope it's our good fortune to show you what we can do for you. Let's talk – at 1 800 US TRUST – ask for Richard Foley, Managing Director. Or visit us at www.ustrust.com.
