The Genes That Bind

From health to history, the science of DNA is changing the narratives of people's lives as they discover who they really are and where they really come from. By **unlocking the secrets in our blood**, we are tracing our genuine family roots, and the lessons range from our propensity for disease to the truth that we are all a **lot more alike than** we may have thought. **Page 46**

All the people in this photo claim a link to Thomas Jefferson
