America...

PROTECT YOUR SKILL...

WITH *Defender* TRADE MARK

FILMS

PAPERS

CHEMICALS

- "Defender" Film provides the latitude, the balanced color sensitivity, the dependability that make every shot count.
- "Defender" Chemical Preparations are made up to match the qualities of the film and paper, to bring out the best in each, to protect those qualities your skill has captured.
- "Defender" Papers, with their long tonal range, the clarity of their whites and the richness of the blacks, bring to life again the full beauty of the scene you saw when you snapped the shutter.

America has so many things to please the camera's eye. It has its shining mountains, its busy cities, and its rich, peaceful fields. Whatever you want to photograph, it is here in plenty... No matter what your choice of picture, you will want to make it a "Defender" picture all the way.

Ask your "Defender" dealer for all three. They are packaged in the distinctive blue and yellow packages.
