

SEEK MEN TO TRAIN FOR TELEVISION

Interesting Work ... Good Money ...
A Real Future
Awaits Ambitious Men

CHICAGO (Special) "I believe many men will be surprised to learn that they may readily prepare to exchange an ordinary, routine job for a highly interesting, good paying career in one of America's most promising opportunity fields," declared E. B. DeVry, President of DeVry Technical Institute.

E. B. DeVry

"Since the TV Station limit has been increased to 2053, some of Television's biggest opportunities lie ahead. Young men anxious to break into this promising field may be trained in our outstanding laboratories in Chicago—one of the finest of its kind—or in the privacy of their own home, including the use of home movies and actually setting up their own home laboratory to provide the practical experience needed."

Employment Service

"When a man completes his training, he then gets the benefit of the same excellent employment service that has already enabled thousands of D.T.I. graduates to get started in a good paying job in the Television-Radio-Electronics field. Or, if he prefers, we will help him start his own service business. One thing is certain! The ambitious young man who prepares to enter Television now will be getting started in one of the nation's fastest growing fields.

"We will be glad," said DeVry, "to give any interested person full facts about this opportunity to get both the training and starting help he needs. It makes no difference where he lives—or whether he has had any previous experience in this type of work. Men 17 to 45 with a high school education preferred. The coupon below, properly filled in, will bring the facts."

DeVRY Technical Institute
4141 Belmont Ave., Dept. SA-6K
Chicago 41, Illinois

I would like your valuable publication, "89 Ways To Earn Money in Television - Radio - Electronics"; also, facts about the training opportunity made possible by your organization.
