SPORTS AFIELD—July 1967

Find a spot and settle down...

put the balloon in the basket...

and ride away! Ready for anything.

"Get a lift out of life. Get a Honda Trail 90," says Jay Fiondella.

Jay Fiondella, popular restaurateur of Santa Monica, California, is never satisfied with the ordinary. That's why he goes exploring in a hot air balloon.

It's also the reason he always takes along the extraordinary Honda Trail 90. Wherever the balloon can't go, the Trail 90 can. Its exclusive "Posi-Torque" dual transmission lets him go nearly 60 mph on the level; up the steepest grades with no strain. All with just the flip of a lever.

"The Honda Trail 90 is perfect for me," says Jay. "Its USDA-approved spark arrestor makes it legal to ride anywhere and it's lightweight enough to load easily on my passenger basket."

All you really need, of course, is the Trail 90 itself. It's safe, quiet, easy to handle and surprisingly inexpensive. And you won't have any balloon payments.
