COVER BY JACK DUMAS

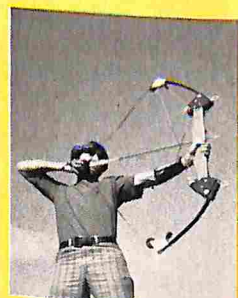

page 52: where to buy reasonably priced handcrafted knives

page 48: how to get the best in walleye fishing

page 50: an account of the courageous and cunning buffalo

page 56: hunting with a new easier-to-handle bow

page 54: the intriguing midnight world of the giant bluefin tuna

SPORTS AFIELD—June 1973

The H&R Huntsman is a great new idea in black powder guns at a price everyone can afford.

The black powder, muzzle-loading Huntsman has everything you could ask for in a "primitive weapon"... and then some. It has a unique, fully enclosed percussion cap nipple that keeps your powder dry, gives all-weather protection, ignition reliability and safety. It has a short fall hammer mechanism for fast, uniform ignition. Top-break action means you can clean it easily, right from the breech. Modern hunting sights are adjustable for windage and elevation. Choose from 45 or 58 caliber and 12 gauge. The 100% American-made Huntsman looks great, too. Walnut finish hardwood stock; blue-black metal finish with color case-hardened frame; solid brass ramrod with hardwood handle; and a price that's making a lot of friends. See your H&R dealer soon and ask to see the Huntsman... the modern muzzle-loader that has so many good things going for it.

Also available: Shikari Model for 45-70 GOVT. standard commercial center fire ammunition.

Send for free copy of full color catalog on the complete line of H&R rifles, shotguns and handguns. Write Dept. SA673

The Huntsman \$65.00
