scriptions are handled by The Hearst Corporation. All foreign mail is post-
paid. • SUBSCRIPTION SERVICE: Mail is post-
paid. • CIRCULATION: 100,000.

The fat get fatter.

In this slimmed-down, trim-lined, low-calorie era, one wide track tire has really gone over big.

Fatso, the wide track belted with fiber glass by Armstrong.

And now it'll go over even bigger. Because now there's a fatter Fatso to fit all the sporty, high performance cars.

Whether you hop from your driveway to the station weekdays, or tool around in rallies on week-

ends, chances are there's a Fatso to help give you a little more peace of mind.

Fatsos offer all the good things you've heard about wide tracks. Lots of rubber to grip hold of the road. Great cornering. Smart looks.

And an important extra: beneath the rubber hide, and above the polyester cords, are two belts of fiber glass. They keep the treads firm and tough.

As a Fatso rides, it's

subject to less scuffing and squirming and abrasion than an ordinary tire. It stays cool.

This resistance to heat, especially at high speeds, means you can virtually forget about blow-outs. And you can expect up to double the mileage you get from ordinary tires... maybe more.

Check your yellow pages for the name of an Armstrong dealer. That's where you'll find Fatso.

There's a Fatso for everyone at
