IN THIS ISSUE

For detailed table of contents, see page 4.

Survival Begins at Home

In a disaster, life can depend on your knowledge of food and water—how to obtain safe supplies, how to avoid what's contaminated. Page 14.

How Science Is Saving Stroke Victims

Advanced surgical and x-ray techniques and improved drugs have brought about striking progress in treating and preventing strokes. Page 23.

On the Tale of a Kite

The world's champion kite flier gives advice on how to fly a kite, and relates his experiences when he won the world's championship. Page 26.

Our Unclean Air

Whether it's called smog, smaze, or smust, public health authorities are becoming more and more concerned about air pollution. Page 30.

The ABC's of Perfect Posture

The first of two articles on posture problems tells how to use proper body alignment for improved grace in standing and walking. Page 37.

What You Can Expect From Speed Reading

Courses claiming to boost your reading rate are available throughout the country. Do they really work? Here are the facts. Page 42.

They Can Be Talked Back to Sanity

Remotivation, a technique developed by a school teacher, is helping the mentally ill down the long road to reality and recovery. Page 44.

Let's Go for a Walk!

Some people walk around the block to relax; others tramp over hills. Almost all agree walking is a pleasant form of exercise. Page 46.

Egg Ideas: Domestic and Imported

If you find this favorite food becoming monotonous, why not try Hot Deviled Eggs, L'Omelette Aux Fines Herbes, or Neptune Salad? Page 50.

COMING NEXT MONTH—

The Incredible Ordeal of Doctor Mudd

Tried for murder, young Dr. Samuel Alexander Mudd narrowly escaped hanging, was sentenced to life imprisonment. At a desolate island prison off the Florida keys, he found himself in the midst of a raging yellow fever epidemic, later took over and ran the hospital there when the disease killed the prison surgeon. He stamped out the epidemic and was rewarded by being thrown into chains. This man's crime: He had set the broken leg of John Wilkes Booth.
